

Women in Nuclear Global 32nd Annual Conference 2025

Hosted by WiN UK

14-18 JULY 2025, LONDON

WiN Global Sponsorship

Welcome to the 32nd Women in Nuclear (WiN) Global Annual Conference, hosted by WiN UK, that aims to revolutionise the narrative surrounding the nuclear industry! Join us in this exciting venture as we embark on a mission together to transform perceptions, foster understanding, and secure the global future of nuclear power.

About the Event

The nuclear industry is often misunderstood but plays a pivotal role in shaping a sustainable, low-carbon future. This week long event will be a safe space for open dialogue, bringing together an audience with an interest in nuclear from across the globe.

We aim to engage in conversations that matter, exploring ways to garner wider public support, dispel myths associated with nuclear energy and to provide our “Influencers” with the tools and dialogue they need to generate positivity around the applications of nuclear technologies.

As always we will continue to deliver content that addresses the ongoing challenge around gender balance in our sector.

Join us as we come together as global nuclear professionals to spread the message of positive, clean, nuclear energy for the future of our planet. Let’s make this “Positively Nuclear” together!

For more information or to enquire about supporting the event contact sponsorship@winglobal2025.uk

Our audience

- ▶ Diverse group of attendees, with capacity for 800 delegates in person.
- ▶ Attendees from all over the world (over 60 countries), in addition to the traditional UK audience of the WiN UK conference, including both current and future decision makers from across the nuclear industry.
- ▶ All major nuclear companies will be represented at the event, providing opportunities to network and form new connections.
- ▶ The event will have a technical side with updates on the latest projects in the UK and globally.
- ▶ The event and sponsors will be promoted through a dedicated website and social channels of WiN Global, WiN UK, other country chapters, and the WiN leadership team (with over 50,000 followers across LinkedIn, and our other social media channels.)

Supporting delegates from developing countries:

Women in Nuclear is committed to supporting women from developing countries to attend the global conference and be part of the nuclear global community.

To support their attendance, some packages include a ticket that will be donated directly to women from developing countries, who could not otherwise attend. Separate sponsorship packages have also been created for companies to directly sponsor women from developing countries. These packages will contain bundles of 10 or 5 tickets.

Why sponsor?

By sponsoring the event, companies will:

Speak directly to delegates at the conference.

Advertise their company to current and future decision makers in the global nuclear industry.

Showcase their commitment to Women in Nuclear globally.

Pledge their commitment to Women in Developing Countries.

Support the development of a more diverse and inclusive future generation of nuclear industry professionals

Promote their company and products/services to representatives of global nuclear operators and vendors, large companies, SMEs, public organisations and universities.
