

WiN China Chapter Report

Huang Guofang President of WiN China

WiN China and WiN Russia Teleconference

WiN China and WiN Russia held the **first-ever teleconference** on February 21st, 2025. The parties established friendship, introduced the development of nuclear power in China and the 2023-2030 Russia' s national action strategy for women, highlighting each chapter' s activities and contributions to global nuclear progress.

Consensus was reached on appointing designated contacts and sharing information about international activities such as STEM courses and the BRICS "Green Future" project, and potential for future bilateral cooperation was explored.

WANO Information Security Training

A **legal training session** was conducted by Ms. Li Zhaohui, Legal Adviser of CNNC, on March 3, 2025 for WANO Shanghai, followed by planned participation in IAEA's INLEX annual meeting as an expert, along with coordinating a CAEA-IAEA workshop on national atomic energy legislation organized by CNNC.

The training covered **nuclear energy industry information security regulations** and international compliance management experiences, aiming to enhance awareness among nuclear professionals.

Participants learned about confidentiality and **export control laws**, which are crucial for maintaining secure operations within the nuclear sector.

SNERDI "She Power" Activities

13 female model workers, artisans, and provincial/ministerial-level outstanding women representatives were accredited with the establishment of innovation studios. These efforts aim to build the "728 Innovation Studio" brand and implement a "Three-Tier Ascension" mechanism. By organizing various innovation exchange activities, a **strong innovation-driven atmosphere has been cultivated**, resulting in over a hundred provincial/ministerial-level employee innovation achievement awards.

Shanghai Nuclear Engineering Research & Design Institute Co., Ltd. (SNERDI) hosted the "She Power" event (March 6, 2025), celebrating women's contributions in nuclear energy through **awards, inspirational stories, family workshops, and wellness programs**, while honoring female innovators and supporting work-life balance.

Women in Tech Forum

The Luo Ying Innovation Studio at Nuclear Power Institute of China has launched the Women in Tech forum, with the inaugural session held on April 11, 2025 in Chengdu, Sichuan.

As an extension and enhancement of the China Association for Science and Technology's (CAST) Sci-Tech Innovation Salon, this forum aimed to further inspire the creativity of female professionals in the nuclear field, empowering them to contribute to high-level self-reliance and strength in science and technology.

The forum featured **technical reports on advanced nuclear energy and reactor technologies**, delving into the breadth and depth of nuclear science and technology. Additionally, it included an **open discussion on "AI for Women in Nuclear Science"**, showcasing the global vision and cutting-edge leadership of female scientists and engineers in the nuclear sector.

Women in Nuclear Global Conference

14-18 JULY 2025, LONDON

Women in Nuclear Global 32nd Annual Conference 2025

Hosted by WiN UK

14-18 JULY 2025, LONDON

GREATEST IMPACT FOR WIN DRC CHAPTER

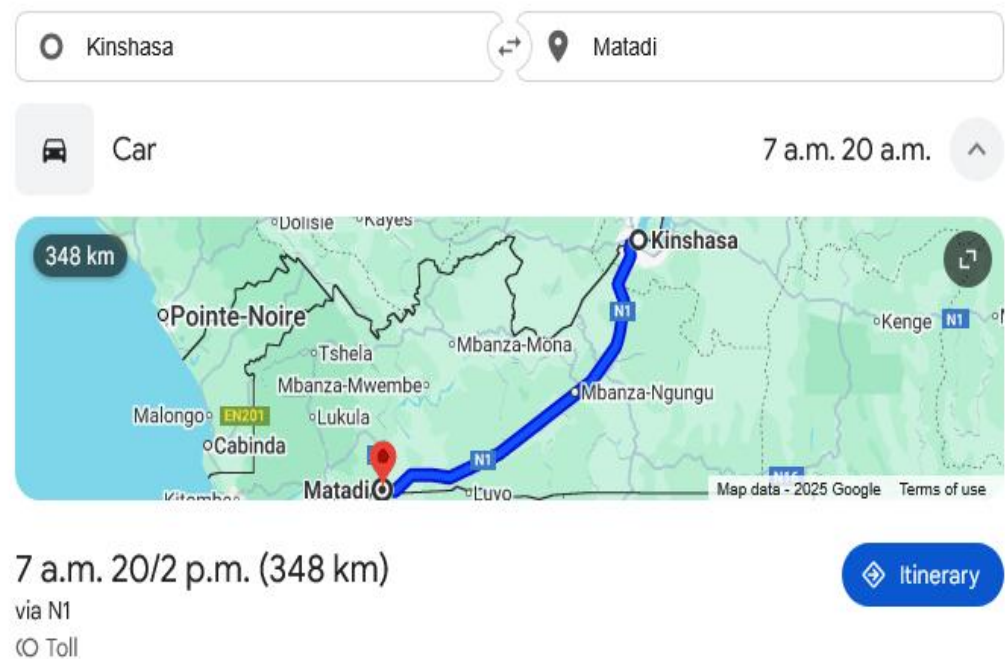

IN ASSOCIATION WITH

The most significant impact was undoubtedly the celebration of the International Day of Women and Girls in Science in February.

We celebrated it with young female students in three high schools of varying standing in Matadi province, located more than 300 kilometers from Kinshasa, the capital of the Democratic Republic of Congo.

1st School visited :

Good mood & friendly atmosphere

WIN Global
2025

2nd School visited :

Some educational gifts

Casual dialogue

3rd School visited :

Enriching exchanges on both sides

Under the pouring rain

We all benefited from these exchanges because, although we shared our experience with them, they also shared their freshness, youthful enthusiasm, and pertinent remarks and questions, reinvigorated our passion for science and our determination to leave the next generation with solid foundations on which they can assert themselves in the future.

It was a magnificent experience, one to be relived in the near future, upon everyone's request!

Women in Nuclear Canada Chapter Update

By: Aiman Khan, WiN Canada President

WiN | WOMEN IN
CANADA NUCLEAR

Total Membership: 6700+

Our eight (8) local chapters:

- WiN-Alberta – 150+
- WiN-Bruce – 1500+
- WiN-Durham – 1700+
- WiN-Eastern Ontario – 1150+
- WiN-Golden Horseshoe West – 800+
- WiN-Manitoba – 60+
- WiN-New Brunswick – 280+
- WIM/WiN Saskatchewan – 300+

WiN | WOMEN IN
CANADA NUCLEAR

Programs

Conference:
2024 Annual
Conference sold out at
700+ attendees

**Leadership
Development:**
EmPOWERed Women,
LEAP

Mentorship Program:
81 participants in 2025

Speaker Clearinghouse:
Growing list of
volunteer speakers

Awards & Scholarships:
3 professional awards +
4 student scholarships
each year

DEI Accreditation:
Pilot complete,
upcoming full launch

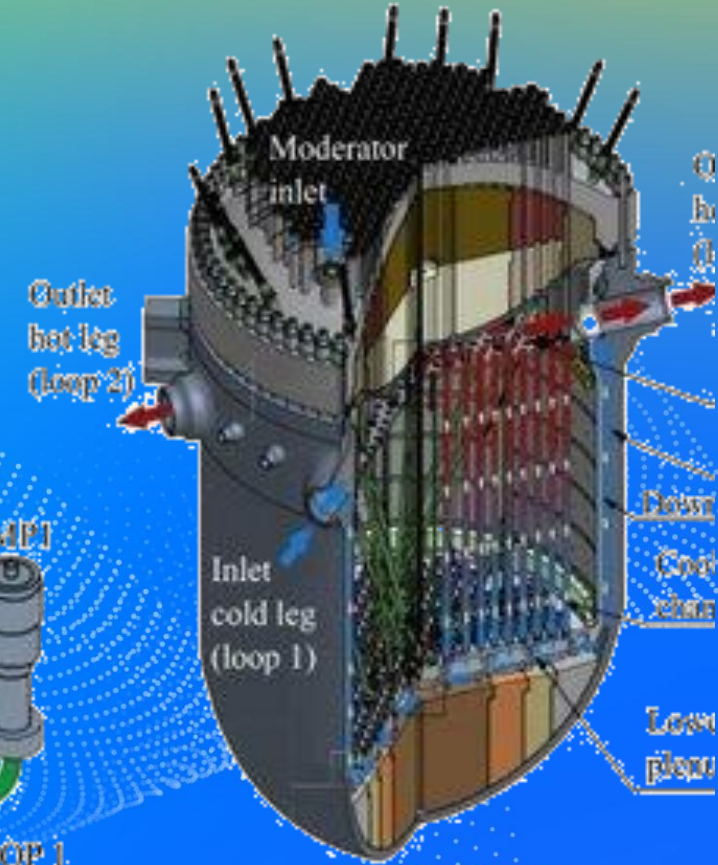

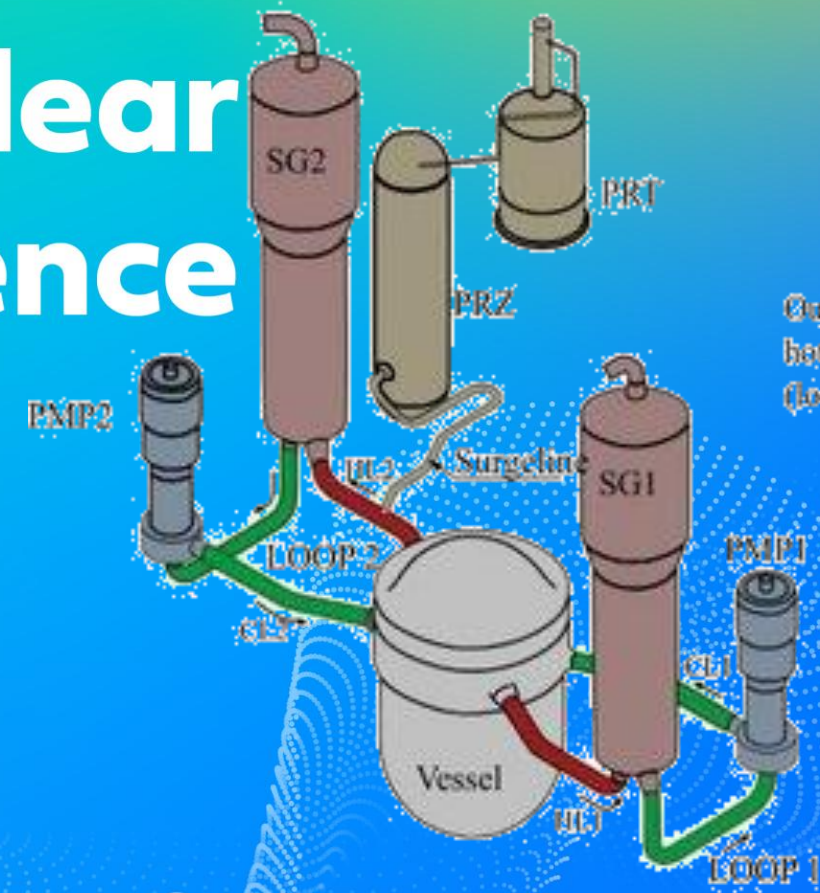

Women in Nuclear Global Conference

14-18 JULY 2025, LONDON

- Young-Sil Sul
- The President of WiN Korea

Korea's Nuclear Industry Overall

◆ Current Status of Nuclear Power Plants

- 26 units operation
- 4 units under construction
- 2 units phase out

◆ Korea's Small Modular Reactor (SMR) Development

- South Korea is advancing multiple Small Modular Reactor (SMR) technologies
- i-SMR, BANDI (Marin SMR), **SMART (System-integrated Modular Advanced Reactor)**, MSR, HTGR, etc.

◆ Korea–Czech Nuclear Power Plant Contract

- In June 2025, Korea Hydro & Nuclear Power (KHNP) officially signed a contract with the Czech Republic to build a new reactor at the Dukovany Nuclear Power Plant site

Education and Capacity Building

◆ Education activities for mom tutors (24–25 Feb. 2025)

- This private certification program has been in operation since 2019
- WiN Korea has trained 197 Radiation Safety Mom Tutors as of 2025

◆ Women's Leadership Training (22 Apr. 2025)

◆ Networking among WiN Korea (30 May. 2025)

Forums, Symposiums and General Assembly

- ◆ **Women in Nuclear Korea Forum for Science & Technology held (30 May. 2025)**
 - (Theme) Evolution of Nuclear Regulation: Balancing Safety and Technological Advancement

- ◆ **Annual Conference and 24th General Assembly (4 Dec. 2024)**
 - Special lecture by Dr. Eva Gyane
- ◆ **Launch of the 7th Executive Committee of WiN Korea (Mar. 2025–Dec. 2026)**

**We Earnestly
Pray for Global
Peace**

**Together, We
Can Achieve
Greatness!**

WiN NIGERIA CHAPTER REPORT

by
Chigoziri Oge Nwakanma
Chapter President

32nd WiN Global Annual Conference
July 14, 2025
London, UK

IN ASSOCIATION WITH

About Us

- Registered as a Not-for-profit society in Nigeria and launched as a Chapter in 2020
- Mission: To support and encourage the role of women in nuclear science and technology.
- Vision: A gender-inclusive nuclear industry in Nigeria.

IN ASSOCIATION WITH

Key Achievements (2025)

- Significant impact on Nigeria's nuclear energy & radiation application sector by promoting female participation and advocating for gender equity - 3 national webinars held
- Actively engaged in STEM education advocacy - 1 school outreach to promote nuclear science awareness, held
- Participation in international training programmes

Strategic Partnerships

- NAEC – Technical support & Funding
- NNRA – Technical support & Funding
- IAEA – Technical support, Training, Funding
- WiN Global – Network engagement
- Nuclear Security Women – Technical support, Network engagement

IN ASSOCIATION WITH

Plans ahead

- University outreach targeting students in STEM fields
- Host 1st National WiN Symposium
- Continue advocacy for gender-sensitive policies in Nigeria's nuclear sector
- Strengthen collaborations with other WiN Chapters & relevant organisations
